Consent to Take Part in a Human Research Study

Title of research study: Videopoints: AI Enhanced Lecture Videos for STEM Coursework

Investigator: **Jaspal Subhlok**

Key Information:

The following focused information is being presented to assist you in understanding the key elements of this study, as well as the basic reasons why you may or may not wish to consider taking part. This section is only a summary; more detailed information, including how to contact the research team for additional information or questions, follows within the remainder of this document under the "Detailed Information" heading.

What should I know about a research study?

- Taking part in the research is voluntary; whether or not you take part is up to you.
- You can choose not to take part.
- You can agree to take part and later change your mind.
- Your decision will not be held against you.
- You can ask all the questions you want before you decide, and can ask questions at any time during the study.

We invite you to take part in a research study about AI enhanced lecture video usage in STEM coursework because you meet the following criteria: You are/were enrolled in a class that deployed AI enhanced videos in the Videopoints portal.

In general, your participation in the research involves sharing your experience with AI enhanced lecture videos in the Videopoints portal by filling a survey. This survey typically takes up to 10 minutes. There are no known risks in participation. You will ***not*** receive compensation for participation

Detailed Information:

The following is more detailed information about this study, in addition to the information listed above.

Why is this research being done?

AI can be deployed to improve student experience and performance when course content is presented as a lecture video. It is important to evaluate the real-world effectiveness of these AI enhancements to drive their incorporation into broadly available educational systems.

Consent to Take Part in a Human Research Study

How long will the research last?

We expect that you will be in this research study for less than one hour

How many people will be studied?

We expect to enroll about 1000 people in this research study.

What happens if I say yes, I want to be in this research?

If you agree to participate, you will be asked to complete a single online survey about your usage and your impression of the features in Videopoints. The purpose of the survey is to understand the value of AI enhanced videos as a learning and teaching tool and to determine how students are making use of these videos. You may refuse to answer any question and terminate the survey without giving a reason. Your answers will have no effect on your grade or standing. The survey typically takes up to 10 minutes

What happens if I do not want to be in this research?

You can choose not to take part in the research and it will not be held against you. Choosing not to take part will involve no penalty or loss of benefit to which you are otherwise entitled.

If you are a student, a decision to take part or not, or to withdraw from the research will have no effect on your grades or standing with the University of Houston.

Your alternative to taking part in this research study is not to take part.

What happens if I say yes, but I change my mind later?

You can leave the research study at any time and it will not be held against you.

Because your responses are anonymous, data that you provided cannot be removed once you have submitted the survey.

Is there any way being in this study could be bad for me?

We do not expect any risks related to the research activities. If you choose to take part and undergo a negative event you feel is related to the study, please contact the researcher/study team.

Will I receive anything for being in this study?

There is no benefit or compensation to you for participating in this study.

Will being in this study help me in any way?

There are no known benefits to you from your taking part in this research. However, possible benefits to others include an improved video driven learning experience for futures students.

What happens to the information collected for the research?

Your taking part in this project is anonymous, and information you provide cannot be linked to your identity.

Who can I talk to?

If you have questions, concerns, or complaints, or think the research has hurt you, you should talk to the research team at jaspal@uh.edu or 713 743 3340.

This research has been reviewed and approved by the University of Houston Institutional Review Board (IRB). You may also talk to them at (713) 743-9204 or cphs@central.uh.edu if:

- Your questions, concerns, or complaints are not being answered by the research team.
- You cannot reach the research team.
- You want to talk to someone besides the research team.
- You have questions about your rights as a research subject.
- You want to get information or provide input about this research.
